

ENOVIA DMU Fundamentals Training Course

INTRATECH work as an extension of your team to offer an exceptional PLM experience. We combine your goals and passion, with our knowledge, creating shared experiences. We adopt the latest tech and agile methodologies so, even as technology changes, our relationships last a lifetime.

We are a Dassault Systèmes Authorized Certification centre and an OEM Endorsed Training Provider. Training with INTRATECH supports your use of technology, creating new innovations, adopting new tools and methodologies. We use our own experienced engineers to deliver training courses covering the 3DEXPERIENCE® platform, CATIA, ENOVIA, DELMIA and SIMULIA Abaqus.

Objectives

This course is designed to provide you with a broad skill set of viewing CATIA V5 CAD data. The course focuses on showing users DM1 capabilities. It is primarily used as a viewing aid and has no design capabilities. You will learn how to view existing parts and assemblies using various tools to aid you. You will also learn how to create your own views for publications and creating annotations for review purposes.

The course includes a mixture of presentation, tutorial and exercises, enabling students to gain hands-on experience. Course sizes are intentionally kept small, allowing our trainers to meet the requirements of individual students, while relating course content to work related issues.

Duration

1 Day

Portfolio

Workshop
Technicians,
Engineering
Managers

Pre-Requisite

- Mechanical design experience
- Experience with the Windows operating system

Course Content

Days	Content
Day 1	• Introduction to CATIA V5 • Creating Assemblies • Positioning Components & Sub-assemblies • Loading and visualisation of assemblies • Analysis Modes (measuring, actioning) • Creating Scenes

Duration

1 Day

Portfolio

Workshop
Technicians,
Engineering
Managers

Pre-Requisite

- Mechanical design experience
- Experience with the Windows operating system
