

Ergonomic Workplace Credit Pack (EWB)

The Ergonomic Workplace Credit Pack supports the role Ergonomic Workplace Designer (EWD)

EWB is a bundle of 10 credits

Each credit is equal to 1 evaluation (Worker Task).

Worker task CREATION = 1 evaluation debited

Worker task EDITION = no evaluation debited

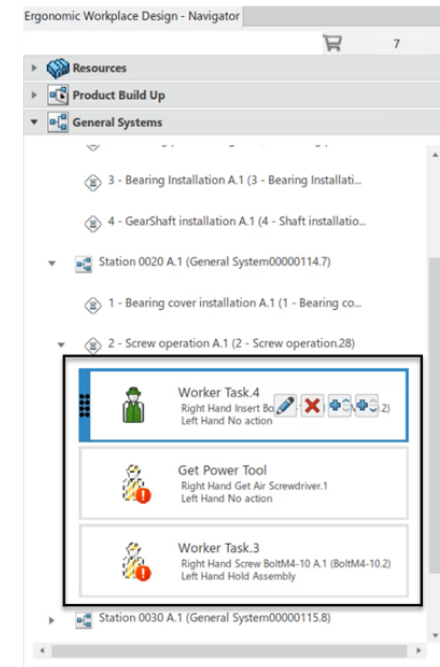

Benefits

How can I evaluate the number of credits needed for my customer?

Since Ergonomic Workplace Designer is a brand new and innovative role, we need feedback from early adopters to have a clear ideas of how much and why EWD credits are consumed. Until we have that clear view, here are 2 guidelines to help you start the discussions:

Option B: suggest 2 bundles of 10 credits (evaluations) per EWD license (per EWD user).

Option C: suggest a range such as SMALL size company = 20 | MID size company = 100 | LARGE size company = 250+ (*INTERNAL ONLY*as an example, Honda wants to do up to 400 evaluations a year)

7 credits left

3 Evaluations
(Worker Tasks)
